Grass equipment

The **STENSBALE** brand has proved its worth since 1965 and is still **GMR's** largest brand. The **STENSBALE** series of grass cutting equipment offers flail mowers, rotary mowers and reel mowers.

The rotary mowers are offered with either rear or side discharge (for collection). The side discharge mowers are available from 1,2 to 4,0 meters and offer perfect distribution of grass.

The **STENSALLE** series of mowers are made with high strength steel and produced in accordance with CE safety standards.

Sweeper equipment

GMR manufactures powerful sweepers, side brushes and sweeper systems built to keep pavements, walkways and paths free of gravel, dust and snow. Hydraulic or mechanical implements are available in the brand **STENSALLE** and **NESBO** in sizes up to 3200 mm. The sweepers are very solid and can be used in demanding tasks.

STENSALLE and NESBO manufactures powerful sweepers for professional use, ideal for clearing pavement, passages and paths of gravel, dust and snow.

The compact and reliable machines are available in numerous combinations with different types of brushes and for many different tractors, implement carriers and loaders.

Special solutions with sweepers

GMR manufactures a number of special solutions for sweeping gravel, dust and snow as well as customized solutions for e.g. the asphalt industry.

The product range covers among other things vacuum-suction-units, sweepers with collector and solutions with emulsion.

12019

Snow equipment

GMR manufactures a wide range of snow removal equipment for compact tractors, farming tractors as well as tool carriers. The snow equipment is marketed under the names **STENSALLE** and **NESBO**, available from 1300 mm to 3000 mm. We supply both diagonal scrapers and V-ploughs with and without flap share and with heavy-duty swing cylinders.

Tractor accessories

GMR offers a wide range of customized solutions for front-mounting-equipment and hydraulic systems for virtually all tractor brands. Compact solutions built for durability and operational safety. With many years' of experience of adapting implements and tractors, **GMR** and **NESBO** are the safe choice when it comes to accessories.

Weed removal equipment

NESBO supplies a wide range of environmental friendly machines for mechanical and thermal weed control. The product range covers environmental rakes, weed brushes, weed burners etc. All models are heavy-duty constructions built for professional use.

GMR maskiner a/s is also...

The **STAMA** product line is a modern range of strong and multifunctional electrical vehicles, all built for professional use. Powerfull electric motors ensure an emission-free operation. The vehicles are available in various sizes and with several types of batteries.

ELKÆR develop and manufactures equipment for nature management to customers such as farmers, contractors, fruit growers, landscape gardeners and municipalities.
